

LLB System Test Script

Use this script for functional, regression, and user acceptance testing. Each test case includes fields for `Comment` and `Overall Remark` so testers can record issues, observations, and the final judgement for that process.

Test Run Details

Field	Value
---	---
Test run date	
Environment	
Build/version	
Tester	
Browser/device	
Overall status	Pass / Fail / Blocked
Overall comment	
Overall remark	

Standard Test Result Fields

Use these fields for every process below.

Field	Purpose
---	---
Actual result	What happened during execution.
Status	Pass, Fail, Blocked, or Not Run.
Comment	Specific observation, defect number, missing data, or clarification.
Overall remark	Final process-level conclusion after all steps are completed.

Test Data Checklist

Data item	Required for	Available	Comment
---	---	---	---
Client applicant account	Client workflows		
Examiner account	Verification and examination		
Recommender account	Recommendation stage		
Approver/Secretary account	Approval stage and signatures		
Accountant account	Payment verification		
Admin account	Settings, users, tasks		
Active licence type and fee	New licence applications		
Hotel licence type	Hotel room count validation		
Existing approved licence	Renewals and post-formation services		
Sample PDF/image attachments	Upload tests		
Paynow test credentials or manual POP	Payment tests		

Process Test Cases

ID	Process	Preconditions	Steps	Expected result	Actual result	Status
---	---	---	---	---	---	---
AUTH-001	User registration	Admin or public registration is available.	Open registration, enter valid personal details, email, password, role where applicable, submit.	User is created, validation succeeds, and user can log in with assigned role.		Not Run
AUTH-002	Login and role redirect	User exists and is active.	Log in as Client, Examiner, Recommender, Approver, Accountant, and Admin.	Each role lands on the correct dashboard and sees only authorised menu items.		Not Run
AUTH-003	Invalid login	User account exists.	Enter wrong password and sub			

mit. | Login is rejected with a clear error and no session is created. | | Not Run | | |

| AUTH-004 | Change password | User is logged in. | Open change password, enter current password and a valid new password, submit, log out, then log in using new password. | Password changes successfully and old password no longer works. | | Not Run | | |

| AUTH-005 | Forgot password | User email exists. | Request password reset or forgot-password action using registered email. | System accepts request and follows configured reset process without exposing account data. | | Not Run | | |

| DASH-001 | Client dashboard | Client has no applications. | Log in as Client and open dashboard. | Dashboard loads with available application/process links and no errors. | | Not Run | | |

| DASH-002 | Internal dashboards | Internal users exist. | Open Examiner, Recommender, Approver, Accountant, and Admin dashboards. | Dashboard counts and task lists load according to each role. | | Not Run | | |

| LIC-001 | New licence application - applicant information | Client account exists. | Start new licence, enter applicant/company details, title, contact details, ID copy, fingerprints, and Form FF, then save. | Application is saved as draft and moves to outlet information step. | | Not Run | | |

| LIC-002 | New licence application - validation | Client starts new licence. | Leave required fields blank and submit applicant form. | Required field validation prevents submission and displays clear errors. | | Not Run | | |

| LIC-003 | Outlet information - non-hotel licence | Draft application exists with non-hotel licence type. | Enter licence, region, outlet, premise location, and outlet details. | Outlet information saves and hotel bedroom fields are not shown or saved. | | Not Run | | |

| LIC-004 | Outlet information - hotel licence room counts | Draft application exists with hotel licence type. | Select hotel licence, enter outlet details, enter Double rooms and Single rooms, save, reopen outlet step. | Bedroom section appears only for hotel licence and saved counts are retained. | | Not Run | | |

| LIC-005 | Hotel licence output bedroom statement | Approved hotel licence exists with Double and Single room counts. | Generate hotel licence document. | Document shows `Number of bedrooms to be maintained: Double: ... Single: ...` above approved managers statement. | | Not Run | | |

| LIC-006 | Director details | Draft application exists. | Add director details with national ID, fingerprints, and Form 55 files. | Director is saved and appears in the director list. | | Not Run | | |

| LIC-007 | Manager details | Draft application exists. | Add manager details with ID, fingerprints, and Form 55 files. | Manager is saved and appears in the manager list. | | Not Run | | |

| LIC-008 | Required attachments | Draft application exists. | Upload required attachments one by one and remove one uploaded attachment. | Uploads save individually, removed attachment disappears, and missing required documents block final submission where applicable. | | Not Run | | |

| LIC-009 | Licence payment - Paynow | Draft application has calculated fee. | Choose Paynow payment and complete test payment. | Payment record is created and status updates according to gateway response. | | Not Run | | |

| LIC-010 | Licence payment - proof of payment | Draft application has calculated fee. | Upload proof of payment and remove it. | POP uploads, can be viewed, and can be removed before submission. | | Not Run | | |

| LIC-011 | Submit licence application | Application has applicant, outlet, manager/director, attachments, and payment details. | Open finalising step and submit. | Application status changes from draft to submitted and a verification task is created. | | Not Run | | |

| LIC-012 | Resolve application query | Application has query raised by internal reviewer. | Client opens query, updates requested section, and resubmits. | Query is marked resolved and application returns to the correct review queue. | | Not Run | | |

| VERIFY-001 | Verification review - approve to next stage | Submitted licence application exists and task assigned to examiner. | Open verification dashboard, review application sections, approve verification. | Application moves to recommendation or next configured stage and task is completed. | | Not Run | | |

VERIFY-002	Verification review - query	Submitted licence application exists.	Open application, enter query details, submit query.	Query is saved, applicant can see it, and task status reflects query state.		Not Run		
VERIFY-003	Verification inspection scheduling	Application requires inspection.	Set inspection date and assign inspector where applicable.	Inspection record/task is created with selected date and visible to assigned officer.		Not Run		
INSPECT-001	Inspection pass	Inspection task exists.	Open inspection, enter inspection findings, mark compliant, submit.	Inspection status becomes compliant and application proceeds to next stage.		Not Run		
INSPECT-002	Inspection fail	Inspection task exists.	Enter failed inspection findings and submit failed report.	Failed report is saved and application follows rejection/remediation path.		Not Run		
REC-001	Recommendation approval	Verified application exists.	Recommender opens dashboard, reviews application, approves recommendation.	Recommendation stage completes and approval task is created.		Not Run		
REC-002	Recommendation query	Verified application exists.	Recommender raises query.	Query is visible to applicant and application waits for resolution.		Not Run		
APPROVE-001	Approval approve	Recommended application exists.	Approver opens finalising view and approves application.	Licence is approved, licence number/status is set, and document can be generated.		Not Run		
APPROVE-002	Approval reject	Recommended application exists.	Approver rejects with reason.	Application is rejected and reason is visible in the relevant dashboard/detail view.		Not Run		
DOC-001	Standard licence PDF	Approved non-hotel licence exists.	Generate licence PDF.	PDF displays licensee, trading name, location, managers, QR code, dates, secretary signature, and excludes hotel room statement.		Not Run		
DOC-002	Licence QR verification	Approved licence with QR exists.	Scan QR code or open verification URL.	Verification page displays matching licence details and status.		Not Run		
DOC-003	Duplicate certificate request	Approved licence exists.	Request duplicate certificate and complete verification/approval.	Duplicate document becomes available according to approved process.		Not Run		
RENEW-001	Renewal application	Existing approved licence is eligible for renewal.	Start renewal from post-formation, upload previous certificate and health certificate, save.	Renewal draft is created with uploaded documents.		Not Run		
RENEW-002	Renewal payment and submission	Renewal draft exists.	Pay or upload POP, submit renewal.	Renewal is submitted and routed to verification.		Not Run		
RENEW-003	Renewal verification and approval	Submitted renewal exists.	Verify, inspect if required, recommend, and approve renewal.	Renewal status becomes approved and renewed licence/document is available.		Not Run		
EXT-001	Extended hours application	Approved licence exists.	Start extended hours, enter date and reason, save draft.	Extended hours draft is created and can be reopened.		Not Run		
EXT-002	Extended hours payment and submit	Extended hours draft exists.	Pay applicable fee and submit.	Application is submitted to review queue.		Not Run		
EXT-003	Extended hours approval/rejection	Submitted extended hours application exists.	Reviewer approves, then repeat with another record and reject.	Approved record generates certificate; rejected record records reason and no certificate is issued.		Not Run		
TEMP-RET-001	Temporary retail application	Approved licence exists.	Start temporary retail, enter date, reason, and location, save.	Temporary retail draft is saved and listed.		Not Run		
TEMP-RET-002	Temporary retail approval	Submitted temporary retail exists.	Reviewer opens application and approves.	Temporary retail certificate is available and verification page matches record.		Not Run		
TEMP-REM-001	Temporary removal application	Approved licence exists.	Star					

t temporary removal, enter temporary outlet details, upload required attachments, save. | Temporary removal draft is saved with attachment list. | | Not Run |

| TEMP-REM-002 | Temporary removal approval/rejection | Submitted temporary removal exists. | Reviewer approves one record and rejects another with reason. | Approved record moves to completed/approved status; rejected record stores rejection reason. | | Not Run | | |

| TEMP-TRF-001 | Temporary transfer application | Approved licence exists. | Start temporary transfer, enter transfer details and manager details where required, submit. | Transfer application is created, paid, and routed for review. | | Not Run | | |

| EXTRA-001 | Extra counter / permission to alter | Approved licence exists. | Start permission to alter, enter reason, upload plan/permission attachment, save. | Draft is saved and attachment can be viewed or replaced. | | Not Run | | |

| EXTRA-002 | Extra counter approval/rejection | Submitted permission to alter exists. | Reviewer approves one record and rejects another. | Status and review reason are recorded correctly. | | Not Run | | |

| MANAGER-001 | Manager change application | Approved licence exists. | Start manager change, add new manager details and files, submit. | Manager change application is created and routed for review. | | Not Run | | |

| MANAGER-002 | Manager change approval/rejection | Submitted manager change exists. | Reviewer approves one record and rejects another. | Approved manager changes apply to licence; rejected change stores reason. | | Not Run | | |

| AGENT-001 | Agent licence application | Client has valid applicant details. | Start agent licence, choose title, enter applicant details, upload each required document individually, save. | Draft is saved and each document can be uploaded/replaced independently. | | Not Run | | |

| AGENT-002 | Agent licence payment auto-submit | Agent licence draft is ready for payment. | Complete payment. | Application automatically submits after successful payment and appears in reviewer queue. | | Not Run | | |

| AGENT-003 | Agent licence approval and document | Submitted agent licence exists. | Reviewer approves and user downloads agent licence. | Agent licence PDF has colorful background, QR code with coat of arms, secretary signature, no URL text below QR, and verification works. | | Not Run | | |

| AGENT-004 | Agent licence rejection | Submitted agent licence exists. | Reviewer rejects with reason. | Rejection reason is saved and visible to applicant/reviewer. | | Not Run | | |

| GOV-001 | Government permit application | Client has approved licence if required by process. | Start government permit, select ministry, enter title of authority, location name, and upload authorisation letter. | Government permit draft is created; hidden fields LLB Number, Licence, Region, and Outlet are not shown on form. | | Not Run | | |

| GOV-002 | Government permit ministry list | Government permit form is open. | Open ministry dropdown/list. | Ministries in Zimbabwe are listed and selectable. | | Not Run | | |

| GOV-003 | Government permit payment | Government permit draft exists and fee is configured in post-formation fees. | Continue to payment and complete payment. | Payment uses government permit fee from post-formation fees and application routes to reviewer queue. | | Not Run | | |

| GOV-004 | Government permit approval and document | Submitted government permit exists. | Reviewer approves and user downloads permit. | Permit PDF uses requested design, coat of arms at top, `LIQUOR LICENSING BOARD` below it, QR code with coat of arms, secretary signature, no URL text below QR, and verification works. | | Not Run | | |

| GOV-005 | Government permit rejection | Submitted government permit exists. | Reviewer rejects with reason. | Rejection reason is saved and visible; no approved permit document is issued. | | Not Run | | |

| PAY-001 | Accountant payment verification | Payment record pending verification exists. | Accountant opens payment verification, approve payment. | Payment status changes to approved and linked application can proceed. | | Not Run | | |

| PAY-002 | Accountant payment rejection | Payment record pending verification exists.

xists. | Accountant rejects payment with reason/status. | Payment status changes to rejected and application remains unpaid or requires new payment. | | Not Run | | |

| PAY-003 | Exchange rate maintenance | Accountant is logged in. | Open exchange rate page, update rate. | New exchange rate is saved and fee calculations use updated value where applicable. | | Not Run | | |

| PAY-004 | Paynow transaction report | Paynow transactions exist. | Filter by date range and status. | Report displays matching transactions only. | | Not Run | | |

| TASK-001 | Manual task assignment | Pending task exists. | Admin opens task assignment, selects user and stage, submits. | Task is assigned to selected user and appears on their dashboard. | | Not Run | | |

| TASK-002 | Task reassignment | Assigned task exists. | Reassign task to another user. | Old assignee no longer sees task; new assignee sees task. | | Not Run | | |

| TASK-003 | Bulk reassignment | Multiple tasks exist in same stage. | Select tasks, choose assignee/stage, submit bulk action. | Selected tasks are reassigned together and unselected tasks are unchanged. | | Not Run | | |

| SETTINGS-001 | Licence type setup | Admin is logged in. | Create licence type, set fee, conditions, instructions, and region fee. | Licence type appears in application forms with configured fee/details. | | Not Run | | |

| SETTINGS-002 | Renewal fee setup | Admin is logged in. | Create/update renewal fee, conditions, instructions, and region mapping. | Renewal process uses configured fee and information. | | Not Run | | |

| SETTINGS-003 | Transfer fee setup | Admin is logged in. | Create/update transfer and transfer-with-manager fees. | Transfer processes use configured fees. | | Not Run | | |

| SETTINGS-004 | Removal fee setup | Admin is logged in. | Create/update temporary removal fee. | Temporary removal process uses configured fee. | | Not Run | | |

| SETTINGS-005 | Post-formation fee setup | Admin is logged in. | Create/update fees for inspection, renewal, extended hours, temporary retail, extra counter, manager change, agent licence, and government permit. | Each post-formation process shows and charges the configured fee. | | Not Run | | |

| MASTER-001 | Province maintenance | Admin is logged in. | Add and update province. | Province list updates and province is available where used. | | Not Run | | |

| MASTER-002 | District maintenance | Admin is logged in. | Add and update district linked to province. | District list updates and dependent dropdowns work. | | Not Run | | |

| MASTER-003 | Council maintenance | Admin is logged in. | Add and update council linked to district/province. | Council list updates and applicant/outlet council data can be selected. | | Not Run | | |

| ADMIN-001 | Internal user creation | Admin is logged in. | Create internal user with role and active status. | User can log in and access assigned role functions. | | Not Run | | |

| ADMIN-002 | User role update | Internal user exists. | Change user role and save. | User permissions and dashboard change on next login. | | Not Run | | |

| ADMIN-003 | User activation/block/unlock | Internal user exists. | Deactivate/block user, attempt login, then reactivate/unlock. | Blocked user cannot access system; reactivated user can log in again. | | Not Run | | |

| REPORT-001 | Approval/reviewer reports | Applications exist in multiple statuses. | Open reports and filter by province, council, region, date, service, or status where available. | Report lists only matching records and totals are correct. | | Not Run | | |

| REPORT-002 | Accountant reports export | Payment data exists. | Filter accountant report and export CSV. | CSV downloads and contains the same filtered records as the report page. | | Not Run | | |

| SEC-001 | Role access control | Users with different roles exist. | Attempt to open restricted URLs for each role. | System blocks unauthorized access and allows authorized access only. | | Not Run | | |

| SEC-002 | File upload restrictions | Upload forms are available. | Try valid P

DF/image, invalid extension, and oversized file if size limit is configured. | Valid files upload; invalid files are rejected safely. | | Not Run | | |
| REG-001 | Regression smoke test | Build is deployed. | Load home page, login, dashboard, create draft application, upload a file, open report, log out. | Core navigation and session flow work without unhandled errors. | | Not Run | | |

Process Sign-Off

Process area	Status	Comment	Overall remark	Signed by	Date
